

## How to Setup Thunderbird

**Download and install Thunderbird eMail program**

**Once the program starts it will open the Mail Account Setup**

A screenshot of the "Mail Account Setup" dialog box. It contains three input fields: "Your name:" with the value "Seasurf Newuser", "Email address:" with the value "seasurfnewuser@seasurf.n", and "Password:" with masked characters. A "Remember password" checkbox is checked. "Cancel" and "Continue" buttons are at the bottom right.

**Enter the name that you want to show up as the “From” when you send an eMail. Next your eMail address, and password then before you click “Continue” Be ready to click “Stop” once the next window appears.**

A screenshot of the "Mail Account Setup" dialog box in a later stage. It shows the same input fields as the previous screenshot. Below them, a section titled "Thunderbird is looking up the settings for your email account." displays the following information:

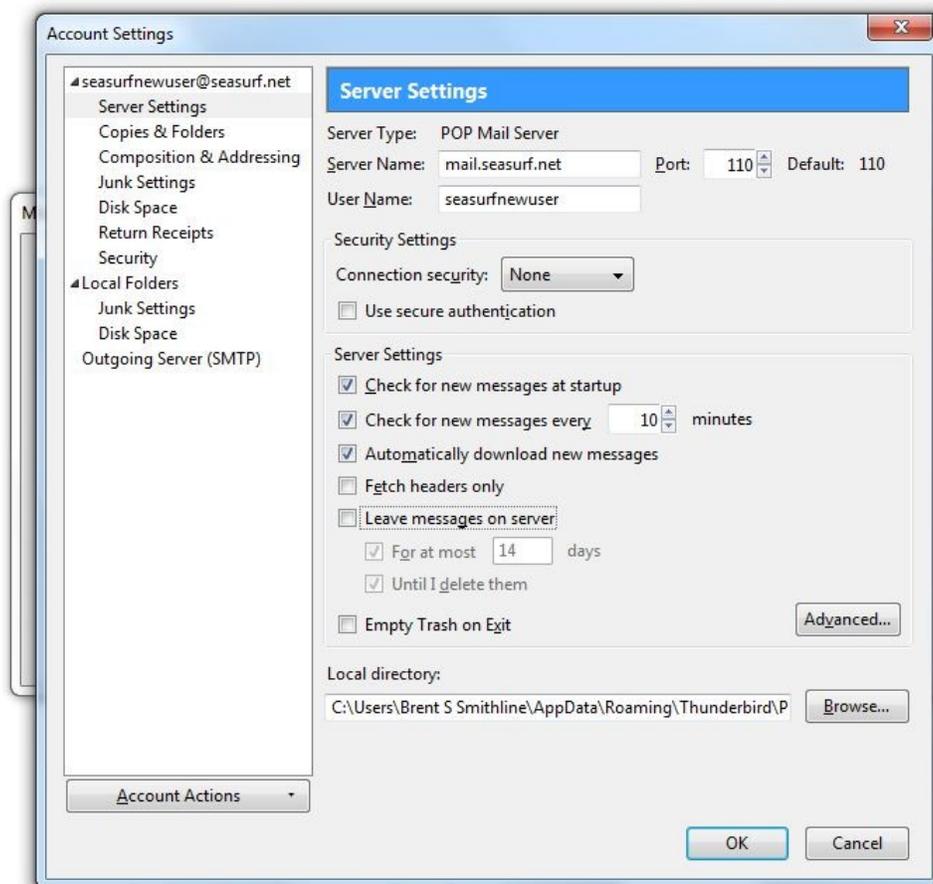

Username:	seasurfnewuser			Stop
Incoming:	imap.seasurf.net	IMAP	143	STARTTLS
Outgoing:	smtp.seasurf.net	SMTP	587	STARTTLS

At the bottom, there are buttons for "Manual Setup...", "Cancel", and "Create Account".

**Once you have clicked STOP we will need to make some changes**

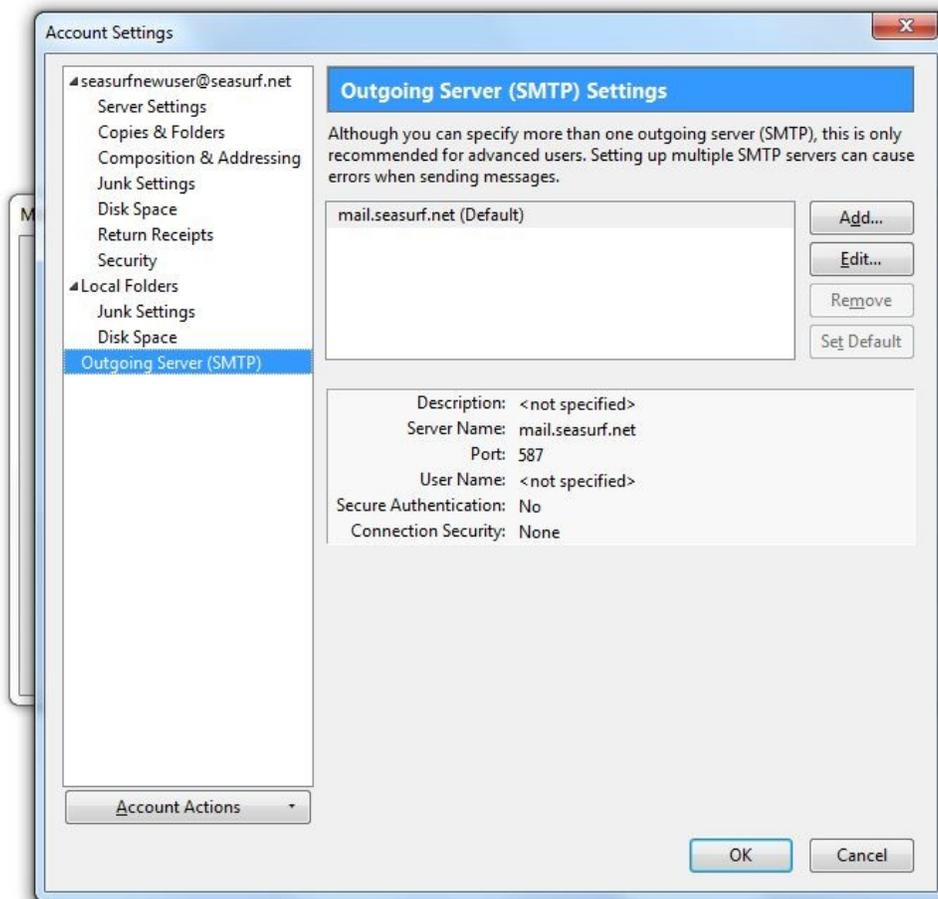

**Change both Incoming, and Outgoing to “mail.seasurf.net”  
Match all the settings as shown above, and then click “Manual Setup”**

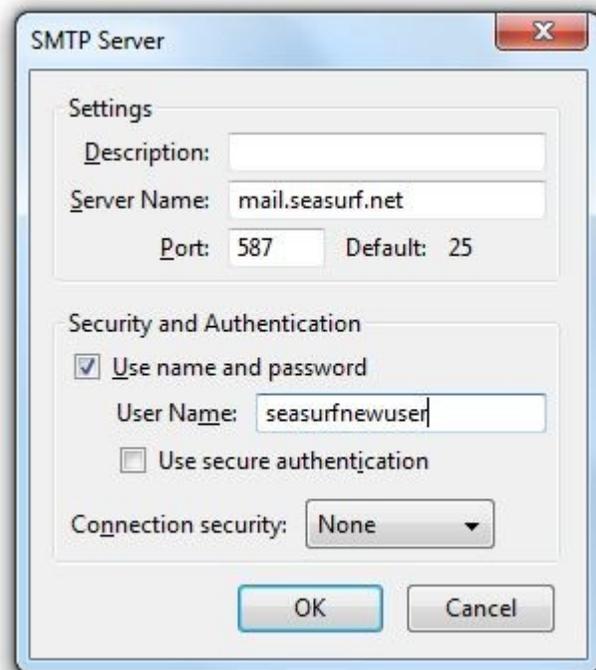

**Next click “Server Setting” along the left side, and uncheck “Leave messages on server”**

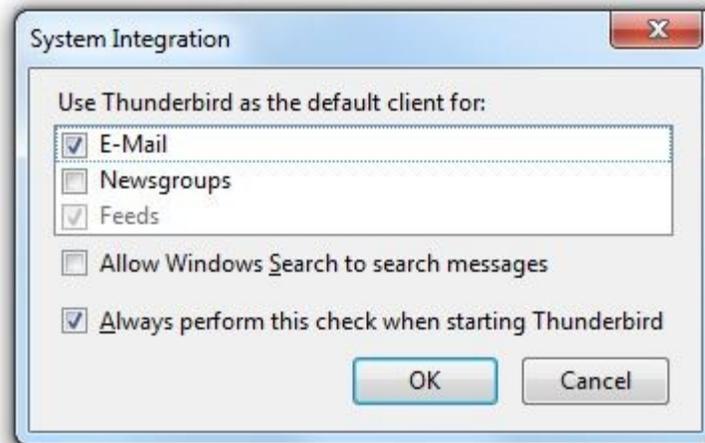

Now click “Outgoing Server (SMTP)” along the left side

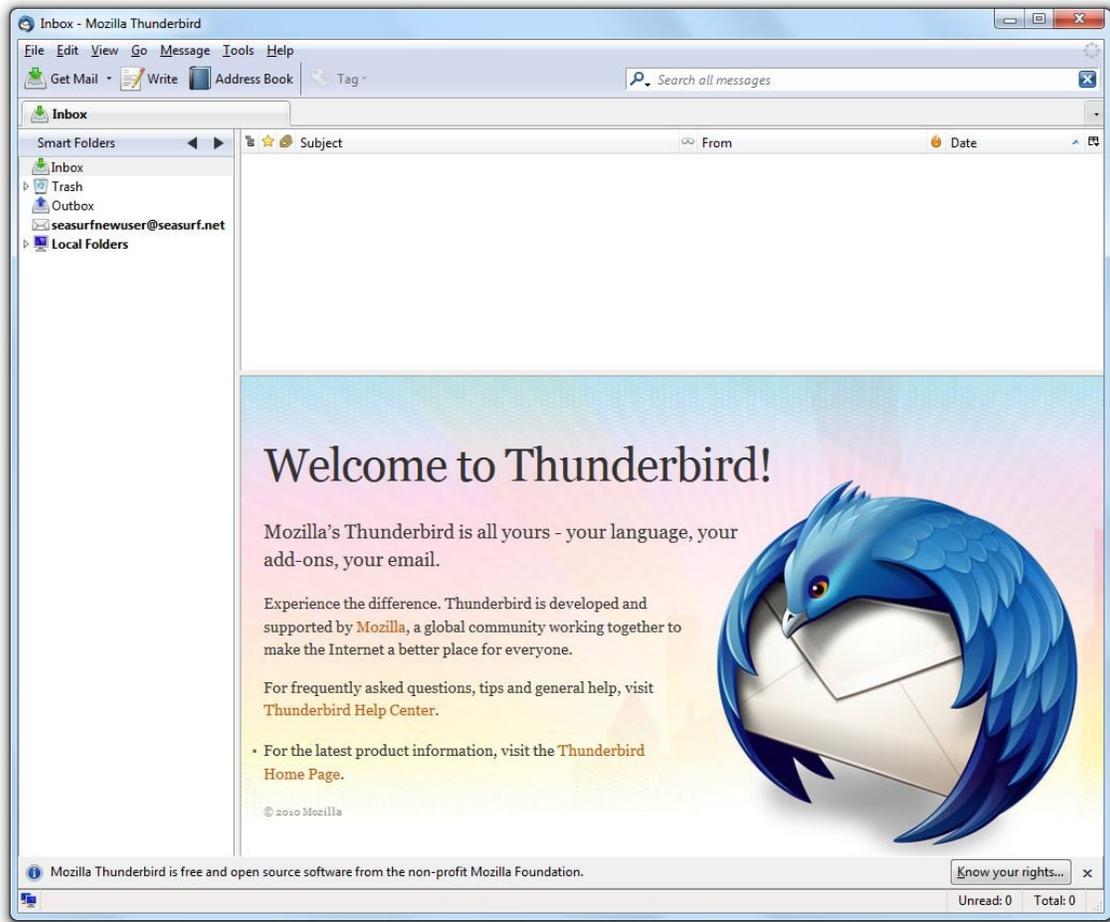

Now click “Edit” on the right hand side

**Now click “Use name and password” and enter your “User Name”, and click OK**

**Next if you wish to have Thunderbird as your default eMail client click “OK”**

**Congratulations your are now ready to use Thunderbird**
